Subject: Recent Dialogue on Risk Perceptions: Would-be geoengineers must listen to the public

3 October, 2011

Phil Isenberg, Chair
Delta Stewardship Council

Greetings Phil.

Trust enclosed recent developments on climate engineering technology in England, described here at

<http://www.newscientist.com/article/dn21000-wouldbe-geoengineers-must-listen-to-the-public.html>

is of some interest.

Understanding of results from a test bed and translating them into an operational instrument for a policy, is also engulfing this geoengineering community.

Regards.

Kiran.
